Declarations on Formation of a Community Interest Company

Company Name in full

Brighter Days (Shropshire) CIC

Community Interest Company

SECTION A: COMMUNITY INTEREST STATEMENT – beneficiaries

1. We/I, the undersigned, declare that the company will carry on its activities for the benefit of the community, or a section of the community.

The company's activities will provide benefit to ...

the residents and communities of Shropshire and Telford & Wrekin, in particular those who rely on the support of grassroots, voluntary, community and social enterprise organisations, including people experiencing bereavement, isolation, or poor mental or physical health. The company benefits this community indirectly, by supporting and strengthening the local organisations, groups, sole traders and others that provide community benefit and serve it, so that they can reach and help more people, more effectively, across the area.

COMPANY NAME

Brighter Days (Shropshire) CIC

SECTION B: Community Interest Statement – Activities & Related Benefit

Please indicate how it is proposed that the company's activities will benefit the community, or a section of the community.

Activities <i>(Please provide the day to day activities of the company.)</i>	How will the activity benefit the community? <i>(The community will benefit by...)</i>
Providing advice, guidance, training and practical help to grassroots groups, charities, community interest companies, sole traders and other organisations providing community benefit, on governance, operations, funding and partnerships.	The community will benefit by: local community organisations becoming better run, better resourced and more sustainable, so the residents of Shropshire and Telford & Wrekin who depend on them receive more reliable and more effective community services.
Helping community organisations secure funding, including raising funds on their behalf and supporting their own fundraising, as well as raising funds for the company's own community work.	The community will benefit by: more funding reaching frontline community activity across the area, so more local people benefit from the services those organisations provide.
Acting as a connector and bridge between community organisations and partners such as universities, public bodies, funders and researchers, including supporting university-led community research.	The community will benefit by: local community needs being better understood and evidenced, and research and resources being channelled to the groups closest to those needs, improving how services reach and help the community.

Gathering and sharing local insight and evidence about the voluntary and community sector and community need.

The community will benefit by: decisions about local community services being better informed, so support is directed where it is most needed across the area.

If the company makes any surplus, it will be used for reinvestment in the company's community activities described above, including supporting the voluntary and community organisations it works with. Any assets transferred on a winding up or dissolution will be transferred to an asset-locked body, with the consent of the CIC Regulator.
